VLADISLAV HADZHIEV

Product Designer

Hello, I'm a Designer who enjoys creating products and figuring out how to make them work better.

My interest in design comes from the mix of creativity and problem-solving — understanding what people need and turning that into simple, useful digital experiences. I also enjoy bringing my designs to life through front-end development.

Design Academic Journey

SoftUni Creativ Sofia,Bulgaria
April 2024 - June 2026

UI/UX Designer Program
Successfully Completed
Professional Qualificaton

Certificate
